

NEVEREND

COMPANY PROFILE / 2026

Technical + Decorative Lighting Solutions

DESIGN / SUPPLY / CONTROLS / BESPOKE

Dubai, United Arab Emirates

LIGHTING
DESIGN +
ENGINEERING

Lighting expertise. Project-specific solutions.

Neverend Lighting provides technical, decorative and bespoke lighting solutions for hospitality, residential, retail and commercial projects.

Based in Dubai, we support architects, designers, consultants, contractors and developers through selection, technical coordination, supply, installation supervision, programming and commissioning.

FROM SPECIFICATION TO COMMISSIONING

**A single project partner across design support,
product supply and lighting controls.**

HOSPITALITY

Hotels, restaurants and experiential venues

RESIDENTIAL

Private residences and high-end developments

RETAIL

Luxury retail, jewellery and customer environments

COMMERCIAL

Offices, mixed-use and public-facing spaces

Integrated lighting services

01

Lighting Design & Consultancy

Consultation, DIALux, fixture selection and specification.

02

Technical Lighting

Architectural lighting, components, submittals and commissioning.

03

Decorative Lighting

Decorative fixture selection, sourcing, finishes and coordination.

04

Bespoke & Creative Lighting

Custom design, prototyping, manufacturing and dynamic effects.

05

Jewellery Lighting

High-CRI showcase lighting for luxury retail environments.

06

Lighting Control Systems

Zoning, dimming, scenes, programming and integration.

01

Lighting Design & Consultancy

Lighting developed around architecture, atmosphere and technical requirements - from initial consultation through coordinated specification.

PROJECT DELIVERY

SPECIFY → SUPPLY → SUPPORT

SCOPE

Service capabilities

- ✓ Lighting consultation & concept development
- ✓ DIALux calculations and lighting layouts
- ✓ Fixture selection and specification
- ✓ Photometric and performance review
- ✓ Colour temperature, CRI and beam selection
- ✓ Load schedules and control requirements
- ✓ Coordination with the project team

SELECTED BRANDS / TECHNOLOGIES

- NEVEREND
- PHILIPS / SIGNIFY
- HELVAR
- CONTROL4
- DIALUX

02

Technical Lighting

Architectural lighting focused on visual comfort, performance and efficiency, supported by engineered components and technical coordination.

PROJECT DELIVERY

SPECIFY → SUPPLY → SUPPORT

SCOPE

Service capabilities

- ✓ Downlights, spotlights and track systems
- ✓ Linear and concealed lighting
- ✓ Interior and exterior architectural lighting
- ✓ Façade and landscape lighting
- ✓ Drivers, power supplies and components
- ✓ Emergency and specialist lighting, as required
- ✓ Submittals and installation supervision
- ✓ Testing and commissioning

SELECTED BRANDS / TECHNOLOGIES

NEVEREND

CREE

OSRAM

MEAN WELL

HELVAR

GE LIGHTING

PHILIPS

03

Decorative Lighting

Fixtures selected to complement the interior concept and character of each space while maintaining technical compatibility and buildability.

PROJECT DELIVERY

SPECIFY → SUPPLY → SUPPORT

SCOPE

Service capabilities

- ✓ Chandeliers and feature lighting
- ✓ Pendant, wall, table and floor lighting
- ✓ Decorative fixture selection
- ✓ Material, colour and finish coordination
- ✓ Product sourcing and supply
- ✓ Technical review and installation coordination

SELECTED BRANDS / TECHNOLOGIES

- NEVEREND
- OSRAM
- PHILIPS
- MEAN WELL

04

Bespoke & Creative Lighting

Custom lighting developed for a specific form, scale, finish or effect - from design detailing through prototypes and final production.

PROJECT DELIVERY

SPECIFY → SUPPLY → SUPPORT

SCOPE

Service capabilities

- ✓ Bespoke fixture development
- ✓ Design detailing and technical drawings
- ✓ Material and finish selection
- ✓ Samples and prototypes
- ✓ Custom manufacturing
- ✓ Decorative and architectural feature lighting
- ✓ DMX and dynamic lighting integration
- ✓ Production and installation coordination

SELECTED BRANDS / TECHNOLOGIES

- NEVEREND
- LERUENA
- CREE
- OSRAM
- MEAN WELL
- DMX

05

Jewellery Lighting

Specialist lighting for jewellery showcases and luxury retail environments, with precise optics and high colour rendering as core priorities.

PROJECT DELIVERY

SPECIFY → SUPPLY → SUPPORT

SCOPE

Service capabilities

- ✓ Showcase and display lighting
- ✓ High colour-rendering light sources
- ✓ Precision optical systems
- ✓ Fixture selection and specification
- ✓ Custom mounting and integration
- ✓ Display and joinery coordination
- ✓ Supply, testing and commissioning

SELECTED BRANDS / TECHNOLOGIES

- NEVEREND
- CREE
- OSRAM
- PHILIPS
- MEAN WELL

06

Lighting Control Systems

Flexible operation, precise dimming and coordinated lighting scenes through integrated control systems, programming and commissioning.

PROJECT DELIVERY

SPECIFY → SUPPLY → SUPPORT

SCOPE

Service capabilities

- ✓ Control system design
- ✓ Circuit zoning and control strategies
- ✓ Scene setting and dimming
- ✓ Philips / Signify and Control4 solutions
- ✓ DMX control and integration
- ✓ Programming and interface configuration
- ✓ Testing, commissioning and project support

SELECTED BRANDS / TECHNOLOGIES

PHILIPS / SIGNIFY

HELVAR

CONTROL4

DMX

Selected brands. Integrated technologies.

Selected for performance, compatibility and project requirements
- then coordinated as part of a complete lighting solution.

ONE COORDINATED ECOSYSTEM

Fixtures, components and controls
selected to work together across
specification, supply and
commissioning.

LIGHTING PRODUCTS

- DMX

From concept to commissioning.

A structured lighting project workflow that connects design intent, technical coordination, procurement and on-site delivery.

01

Brief & Design Intent

Architecture, atmosphere, lux targets, budget and project requirements.

02

Design & Specification

DIALux studies, fixture selection, optics, CCT, CRI and control intent.

03

Technical Coordination

Submittals, schedules, samples, approvals, loads and system coordination.

04

Procurement & Production

Supplier coordination, manufacturing follow-up and quality control.

05

Site Coordination

Installation supervision, positioning, addressing and interface support.

06

Commissioning & Handover

Testing, programming, scene setting, snagging and final handover.

Engineering behind every project.

The technical documentation and coordination required to move lighting from design intent to a buildable, commissioned solution.

TECHNICAL PACKAGE

Coordinated documentation for project execution.

CALCULATE → SPECIFY → COORDINATE → VERIFY

Lighting Calculations

DIALux studies · Lux levels · Photometric review

Fixture Specification

CCT · CRI · Beam angle · Wattage · Optics · IP ratings

Technical Coordination

Fixture schedules · Submittals · Load schedules · Control zoning

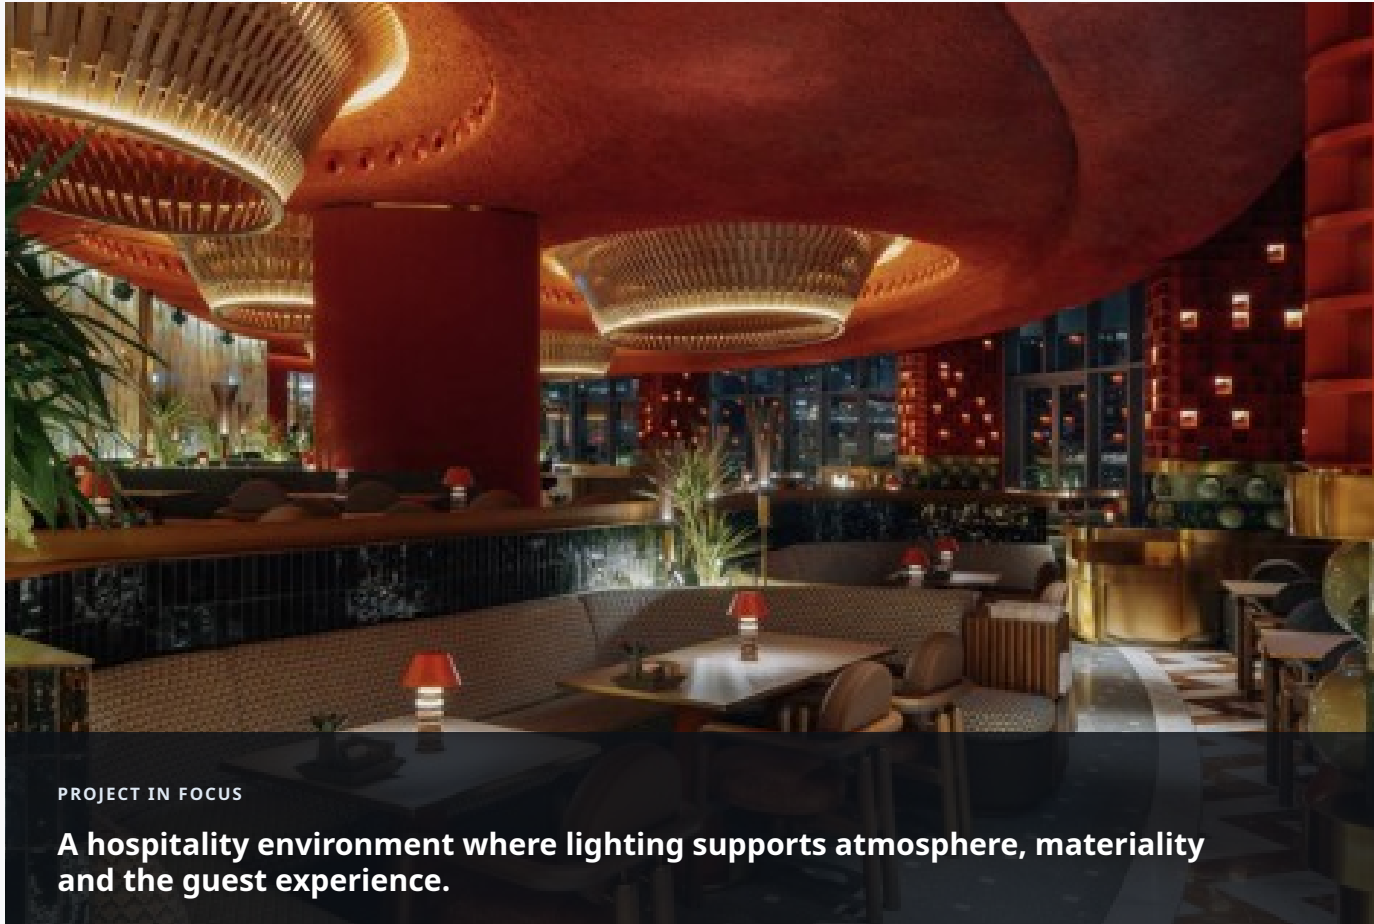

Samples & Approvals

Product samples · Mock-ups · Finish coordination · Performance review

HUQQA DUBAI MALL

Hospitality lighting project · Dubai · 2026

PROJECT FRAMEWORK

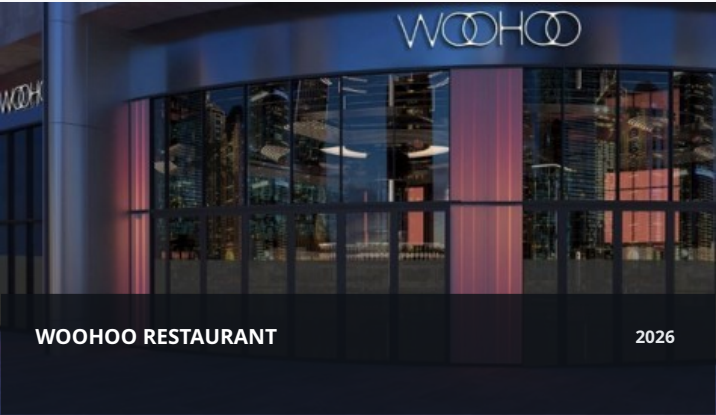

Capabilities relevant to hospitality delivery

- ✓ Technical lighting
- ✓ Decorative lighting
- ✓ Fixture selection & specification
- ✓ Control integration
- ✓ Site coordination
- ✓ Testing & commissioning

Selected project shown as part of Neverend Lighting's regional portfolio.

Selected projects

Hospitality, retail and landmark projects delivered across the region.
