

COMPANY PROFILE

Established in 2004, **Neverend** is an **engineering-driven** provider of integrated lighting, controls, and building solutions. With operations across the United Arab Emirates, Türkiye, Bulgaria, and China, we combine international manufacturing capabilities with local technical expertise to support projects from concept to completion. Our expertise covers **architectural lighting, decorative lighting, outdoor lighting, infrastructure lighting, lighting control systems, engineering services, and selected building solutions, including building solutions**. Through a complete approach covering design, supply, manufacturing, commissioning, and after-sales support, Neverend serves consultants, architects, developers, contractors, and end users across hospitality, commercial, residential, retail, public realm, and infrastructure projects. Driven by quality, performance, and long-term partnerships, Neverend continues to deliver reliable solutions for modern built environments.

Vision & Mission

Our vision is to become a trusted leader in integrated lighting and building solutions, recognized for engineering excellence, innovation, quality, and long-term partnerships.

Our mission is to deliver high-quality lighting, control systems, engineering services, and selected building solutions through technical expertise, reliable global partners, and a commitment to supporting every project from concept to completion.

Core Solutions

Neverend delivers integrated engineering, lighting, and building solutions designed to support projects from concept through completion. By combining technical expertise with trusted global partners, we provide reliable solutions tailored to the needs of hospitality, commercial, residential, retail, infrastructure, and public developments.

Lighting Solutions

Architectural, decorative, landscape, façade, infrastructure, and **custom lighting solutions**.

Lighting Controls & Automation

Intelligent [lighting control systems](#), programming, commissioning, and smart automation solutions.

Custom Manufacturing

Design and production of [bespoke lighting](#) products and project-specific solutions.

Building Solutions

Premium [kitchen appliances](#) and selected building products supplied through trusted international partners.

Engineering Services

Neverend provides comprehensive engineering services to support every stage of a project, from initial planning and design through commissioning and after-sales support. Our technical team works closely with consultants, architects, contractors, and developers to deliver practical, efficient, and high-performance solutions.

Our Engineering Capabilities

- Lighting Design & Consultation
- Lighting Calculations (DIALux)
- Shop Drawings & Technical Documentation
- Product Selection & Specification Support
- Lighting Control System Design
- Programming & Commissioning
- Custom Product Development
- Site Supervision & Technical Support
- Testing & Commissioning
- After-Sales Technical Assistance

Product Portfolio

Neverend offers a comprehensive portfolio of high-quality products for architectural, commercial, hospitality, residential, and infrastructure projects. Our solutions are carefully selected and engineered to meet the highest standards of performance, reliability, and design.

Indoor Lighting

Architectural, decorative, recessed, surface-mounted, pendant, track, linear, and emergency lighting solutions. Our indoor lighting range is selected to enhance visual comfort, design quality, and functional performance across different project environments.

Outdoor Lighting

Landscape, façade, street, urban, bollard, flood, and infrastructure lighting. Each outdoor solution is designed with consideration for durability, weather resistance, safety, and long-term site performance.

Lighting Controls

Lighting control systems, automation, DALI, DMX, control panels, sensors, gateways, and smart building integration. These systems allow flexible scene control, energy efficiency, scheduling, dimming, and centralized lighting management.

Building Solutions

Premium kitchen appliances and selected building products supplied through trusted international partners. We support project requirements by coordinating reliable product sourcing, technical selection, and supply through approved partner brands.

Custom Solutions

Custom-designed luminaires, bespoke architectural lighting, and project-specific manufactured products. Our custom solutions are developed based on drawings, concepts, site conditions, and consultant requirements to achieve the required design intent.

Technology & Solution Partners

Neverend collaborates with globally recognized manufacturers and technology providers to deliver reliable, innovative, and high-performance solutions across every project. Our strategic partnerships enable us to offer industry-leading products, intelligent control systems, and premium building solutions backed by trusted global brands.

Solution	Technology & Brand Partners
Lighting Solutions	Signify • Philips • OSRAM • CREE • Mean Well • Leruena
Lighting Controls & Automation	Philips Dynalite (Signify) • Helvar
Building Solutions	Beko • Whirlpool • Ariston • Harman Group •
Custom Manufacturing	Neverend Engineering & Manufacturing
Engineering Services	DIALux evo • AutoCAD • BIM

Our technology and solution partners are carefully selected based on their proven quality, technical performance, innovation, and compliance with international standards. By combining globally recognized products with Neverend's engineering expertise, we deliver integrated solutions that are reliable, efficient, and [tailored to each project's specific requirements](#).

Every solution undergoes a comprehensive technical review to ensure compatibility, performance, and long-term reliability. From product selection and system integration to commissioning and after-sales support, [Neverend](#) is committed to maintaining the highest standards of quality, professionalism, and customer satisfaction throughout every stage of the project lifecycle.

- **Sales & Client Relations**
- **Finance & Commercial Management**
- **Technical & Installation Support Team**

Certificates & Standards

- CE Conformity
- RoHS Compliance
- IEC Standards
- EN Standards
- Low Voltage Directive (LVD)
- EMC Directive
- IP Rating (IEC 60529)
- IK Rating (IEC 62262)
- CB Scheme (IECEE)
- IES LM-79
- IES LM-80
- TM-21
- CRI Test Reports
- CCT & Chromaticity Reports
- IESNA Standards
- CIE Publications
- ANSI Lighting Standards
- EN 12464-1
- EN 12464-2
- DALI (IEC 62386)
- DMX512
- ISO 9001
- ISO 14001
- ISO 45001

Our Approach

Custom Design & Engineering Capability

Ability to develop and adapt lighting solutions based on specific project requirements, including technical modifications and bespoke designs.

Project-Focused Approach

Strong understanding of project workflows, enabling effective coordination with consultants, contractors, and designers throughout all stages.

Technical Expertise & Practical Solutions

Combination of lighting knowledge and engineering capability to address both design intent and technical challenges.

Flexible & Adaptive Solutions

Capability to adjust products and specifications to suit project-specific needs, rather than relying only on standard offerings.

Compliance with Industry Standards

Products and solutions aligned with relevant international standards and project requirements, ensuring smooth approval processes.
